

WRHA ROUNDUP

WWW.WISCONSINRANCHHORSE.COM

Winter 2025

Wrapping Up 2025

Well, the WRHA show season is officially over, & the holidays are right around the corner – where did the year go?!

2025 was another *great* year for WRHA! In May, we had our largest show ever, & for the entire season, we saw a 7% increase in total entries from 2024 – that's a staggering 43% increase compared to 2021 entries! It's so exciting to see our charter grow!

Even though shows are done for the year, the board has been VERY busy planning for the annual **WRHA Awards Banquet**. We look forward to celebrating with everyone on Feb. 28th!

End of the season also means that it's time for nominations! **2026 Officer** nominations as well as **2025 MVP** nominations will close on Nov 30th with voting ballots to follow soon thereafter.

Finally, **THANK YOU** to everyone who made 2025 a year to remember! It takes a village to put on these events, & these shows could not exist without the support of our WRHA board, volunteers, judges, scribes, office staff, announcer, gate crew, cattle crew, grounds crew, sponsors, exhibitors, trainers, families, friends & more! See you in 2026!

2025 WRHA Board

Officers

President: Jo Ellen Milkie

Vice President: Natalie Derry

Treasurer: Sarah Lidicker

Secretary: Ashley Gorczynski

Board Members:

LubriSyn® | HA

Better Joint Care Starts with HA

LubriSynHA helps maintain joint health by replenishing hyaluronic acid, improving mobility, and reducing stiffness. It's a safe, easy, and natural way to support horses' and riders' lifestyles and overall joint comfort.

Why do you and your horse need LubriSynHA?

Joint Protection for All Disciplines

LubriSynHA helps ranch horses stay comfortable and mobile with daily joint support. Its high-quality hyaluronic acid lubricates joints and reduces inflammation, promoting long-term joint health and performance.

Faster Recovery Between Phases

LubriSynHA is the perfect joint support for hardworking ranch horses, promoting faster recovery and lasting soundness. Its high molecular weight hyaluronic acid reduces inflammation and supports smooth, healthy movement—keeping your horse comfortable and ready for the next ride.

Preventative Care

Consistent joint support with high-molecular-weight hyaluronic acid can help prevent long-term joint deterioration, keeping horses sound and performing at their best for longer careers.

Human Performance & Recovery

Riding takes its toll — not just on your horse, but on you too. LubriSynHA helps protect your joints with the same high-quality hyaluronic acid used for horses, reducing inflammation and keeping you moving comfortably through every ride, chore, and long day's work.

MollysCustomSilver.com

An advertisement for Molly's Custom Silver. It features a woman in a blue shirt, light blue jeans, and a black cowboy hat standing in a field at sunset. In the foreground, there are several award buckles, including one from the 'TEXOMA HORSEBACK CLASS OF 2023' and another from 'TEXAS A&M UNIVERSITY CLASS OF 2023'. A red banner with the text 'SHOP NOW' is overlaid on the image. The text 'CUSTOM BUCKLES & WESTERN JEWELRY' is also visible. At the bottom, it says 'FOR YOUR EVENT, AWARDS OR OUTFIT'.
